EDUCATION

Faculty of Engineering | Minia University | Egypt

Bachelor Of Engineering (Mechanical & Power)

Graduation Year : 2012 | Degree : Good (71.50%)

Graduation Project : Analysais and Design for an external
(Diffusion and premixed) combustion .

Project Degree : Excellent

LANGUAGE

Arabic : Mother Tongue

English : Fluent speaking & writting

MANGIERIAL SKILLS:

- | | | |
|---|--|--|
| • Project management & planning | • Budget planning | • Hotels renovations & opening |
| • System contingency plan | • Strong decision maker | • Hotel systems |
| • Team - Leadership/Collaboration. | • Client/Server Programming. | • Infrastructures reengineer. |
| • Quality Assurance/ Compliance. | • Demonstrated ability to mentor/coach people at all levels of management. | • Excellent problem solving skills. |
| • Strong leadership and negotiation skills. | • Handling guest complains. | • Awareness of Engineering assets |
| • Co-operative with others. | • Working under stress. | • Ability for ongoing learning and training. |
| • Handling routine office administration. | • Ability to work in challenging situations. | • Willing to work effectively and efficiently Presentable, energetic, and self-motivator |

TECHNICAL SKILLS:

- | | |
|---|--|
| • Knowledgeable in steam boilers systems(Maintenance, troubleshooting and water treatment) | • Knowledgeable in cooling and freezing systems including commissioning , maintenance and troubleshooting (Cooling rooms,Freezing rooms, fridges, Ice making machines |
| • Knowledgeable in maintining Mills(ball mills,pin mill,wetmill,) Pumps(Stations, Diesel,Gear),Cooling Tower ,Compressor(Atlas Copco),Air bag Filters,Classifiers,Blowers,Pneumatic Systems,Screw Conveyor,Belt Convoyer,Bucket Elevator and Packing Machine. | • Knowledgeable in Kitchen Equipment including (Mintenance , troubleshooting) |
| | • Knowledgeable in water treatment and responsible to do the bacteriological and legionella lab tests every quarter |

- Knowledgeable in power generators 1MVA including, maintenance and troubleshooting
 - Knowledgeable in HVAC systems including installation, commissioning, maintenance and troubleshooting.
- Types :** Chillers , DX , AHU's, FCU's, Exhaust fans, split units and heating systems)
- Knowledgeable in Mechanical Pumps Included (Installation, troubleshooting and Maintenance.)

COMPUTER SKILLS:

- Microsoft office (Excel, Word, Power Point, Access)
- E-mail System (IBM Domino Mail client, MS outlook)
- AutoCAD
- Internet

TRAINING & COURSES:

SCIENTIFIC EXPEDITIONS:

- Plant for the production of corymat and distribution of electricity in Beni Suef, spring 2011.
- Cdoan station for drinking water in Minya, winter 2011.
- Abu Qurqas sugar factory in Minya, Spring 2010.

TRAINING:

- Company acic Mining, summer 2010
- Belayim Petroleum Company, summer 2010
- Sugar factory (Abo korkas), summer 2009.
- Company acic Mining, summer 2009.

COURSES:

- AutoCAD
- PLC
- Classic control
- HAP
- ICDL
- Electro-Mechanical
- Pipelines & PLC
- Hydraulic, OSHA, Water treatment, Fire fighting, Plumping, HVAC and Electrical Distribution
- HACCAP
- MAT LAB

DUTIES & KEY RESPONSIBILITIES:

- Manages the repair, maintenance and engineering operations according to the departmental standards.
- Regularly check the proper handling of all power tools and measuring instruments.
- Assists other tradespersons, technicians when requested.
- Ensures cleanliness of all work areas and protects the surroundings while executing duties.
- Ensure the proper execution of the Preventive Maintenance Programme according to schedules
